Since 1993, the staff of Skinner Interior Systems, Inc. has consistently satisfied general contractors, building owners and architects, by achieving quality results in commercial acoustical ceiling and wall panel installations.

Skinner Interior Systems, Inc. is a fully licensed Acoustical Ceiling Contractor for the State of Arizona offering a full range of services from minor repairs, to tenant improvements and new buildings on commercial projects only.

Services we provide include:
Acoustical Ceiling Systems, Acoustical Clouds, Acoustical Wall Panels, Clean Room Ceilings, Integrated Ceilings, Custom Metal Ceilings and FRP-Fiberglass Reinforced Plastic Panels.

Skinner Interior Systems, Inc. follows a team approach on every project. We are committed to meeting our customers' needs and we provide quality and value in the final product. Ultimately, we are here to serve our clients, with quality and on time performance.

Skinner Interior Systems, Inc. maintains a reputation for honesty and integrity. We never compromise our business ethics and always provide a high level of service with accountability & quality to build relationships and ensure customer satisfaction and loyalty. Should any issues arise, we pride ourselves with being able to identify, rectify and satisfy our customer's needs. Skinner Interior Systems, Inc. is respected among all the major manufacturers in the acoustical industry.

Professionalism is evident in our company from office staff to field employees. We are knowledgeable and proud of the products and services we provide.
